### REMARKS / ARGUMENTS

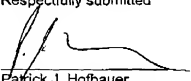

In the specification, Paragraph Nos. 0022 and 0023 have been amended to correspond with currently amended Claims 1 and 2. Also, Paragraph No. 0035 has been amended to ensure that the detailed description of the subject application likewise corresponds with currently amended Claims 1 and 2.

Claims 1-34 are pending in this application. In the aforementioned telephone conference, Examiner Truong acknowledged that the current amendment to Claim 1 is directed to allowable subject matter. Claim 2 is currently amended to properly correspond with changes to the antecedent basis in Claim 1. Claims 6-16 are no longer withdrawn from consideration since, as aforesaid, the Examiner has acknowledged that generic Claim 1 is directed to allowable subject matter.

Reconsideration of the above-identified application in view of the preceding amendments and/or remarks with a view toward timely issuance of a Notice of Allowance is respectfully requested. If after reviewing this response, the Examiner believes that a telephone or personal interview would facilitate the resolution of any remaining matters, the undersigned attorney may be contacted at the number set forth hereinbelow.
